FIRMWARE VERSION 1.0.3.9

PRODUCT NAME

GDMS SecureAccess

DATE

5/29/2026

SUPPORTED DEVICE MODELS

Supported Device Models	Minimum	Recommended
GDS3725	1.0.1.35	1.0.3.3
GDS3726	1.0.1.35	1.0.3.3
GDS3727	1.0.1.35	1.0.3.3

SUPPORTED BROWSERS

- Mozilla Firefox 86+
- Google Chrome 52+
- Apple Safari 12+
- Microsoft Edge 40+

ENHANCEMENT

- This is the initial version.

KNOWN ISSUES

- The platform supports unified full-configuration distribution. When configurations are synchronized to GSC356X model devices, only the applicable configuration items take effect, without affecting device functionality.
- GDS372X version 1.0.1.X and earlier support only 10 schedules; versions after GDS372X 1.0.1.X support up to 50 schedules.
- Using Firefox with the SecureAccess platform, the organization list is not displayed and it is not possible to switch between organizations.
